Portland, Oregon

Work Experience

7/19 - 6/20

Senior Software Engineer for Acorns • Portland, Oregon

- Led a team of 2 other backend engineers in the design and implementation of Spend Recurring Deposits, a top-priority greenfield project now responsible for transactions totaling over \$6 million a month
- Abstracted the scheduling and execution of recurring transfers into a single serverless architecture capable of managing the process for all product lines
- Improved logging and visibility into a previously opaque monolith responsible for managing over 1 million IRA accounts; expanded its metrics dashboard from displaying just CPU and memory usage to exposing full metrics suites for GraphQL, 3rd party API performance, database performance, and batch job success rates
- Represented my team on a committee responsible for directing the development of CI/CD tooling

5/18 - 7/19

Software Engineer for Acorns • Portland, Oregon

- Built out a new microservice to support the Local Found Money feature of the Acorns Spend product
- Migrated cross-system investment synchronization stream processor from a monolithic backend into a new serverless architecture, resulting in drastically improved reliability
- Worked with a 3rd party service provider to integrate against their API

6/17 - 5/18

Software Engineer for Harmonic • Beaverton, Oregon

- Implemented a new testing tool using Simple DirectMedia Layer that enabled engineers to visually verify the output of their encoder changes
- Optimized color space conversion code in the HEVC encoder for a 2% overall CPU time reduction

Technical Experience

Programming Languages

Proficient in Scala, Kotlin, Typescript

Basic knowledge of Java, Python, Bash, Ruby

Tools/Libraries

Proficient in Git, Docker, Serverless Framework, Mockito, Guice

Basic knowledge of GraphQL, Maven, SBT, JUnit

Databases

Proficient in both SQL (PostgreSQL) and NoSQL (DynamoDB)

Platforms

Proficient in AWS, Datadog, CircleCI

Education

2012 - 2017

B.Sc. Computer Engineering; Minor: Computer Science from

Oregon State University • Corvallis, Oregon

Graduated magna cum laude (3.79 / 4.0 GPA)
